

Dinh Hoa Nguyen

Kyushu University, Japan

Dinh Hoa Nguyen received his B.S degree in Automatic Control from Hanoi University of Science and Technology in 2007, M.Eng degree in Electrical Engineering in 2009 from Chulalongkorn University, and PhD degree in Information Science and Technology, The University of Tokyo in 2014. After that, he worked for Hanoi University of Science and Technology until 1/2015 and for Toyota Technological Institute until 12/2016. Since 12/2016, he has been an Assistant Professor at International Institute for Carbon-Neutral Energy Research and Institute of Mathematics for Industry, Kyushu University, Fukuoka, Japan.

His research interests include integration of renewable and distributed energy resources to smart grid, multi-agent systems, distributed optimization, and demand response. He has received several awards including the Japan Society of Instrument and Control Engineers International Scholarship in 2009, the IEEE Travel Support Award in 2009, the best section presentation award in the 2016 IEEE International Conference on Sustainable Energy Technologies and the 2018 5th International Conference on Power and Energy Systems, the best paper award in the 2018 International Conference on Science and Engineering.

Dr. Hoa is a member of IEEE, and is an editorial board member of the journal Smart Science published by Taylor & Francis.
