

**Ray Biplob**

*CQUniversity, Australia*

Biplob R. Ray is an ICT lecturer at the School of Engineering and Technology, CQUniversity, Australia. He has fourteen years of experience in the Education and IT industries in Philippines and Australia. He has worked as a system programmer and team leader in HSG, Philippines. He has also worked as an analyst programmer and research assistant in Telstra and Deakin University respectively. He has published a number of peer-reviewed articles and book chapters on network security and health informatics. Dr. Ray is a member of IEEE society, Golden Key International Honour Society and senior member of Australian Computer Society (ACS). He has served as a member of technical program committee, conference organising chair, journal's editorial board member and reviewer for a number of conferences and journals since 2010. Dr. Ray is highly interested in multidisciplinary research with core interests in secure communication protocols for networked distributed systems (like cloud computing and Internet of Things (IoT)), information privacy, machine learning and forecasting.
