

Bundit Sapianchai
BCPG, Thailand

Bundit Sapianchai is President and CEO of BCPG Public Company, a leading renewable energy company in Asia Pacific Today the Company operates and invests in solar, wind and geothermal power businesses in Thailand, Japan, Philippines and Indonesia.

As the world moves towards decentralization, coupled with the sharing economy concept, which has resulted in a change in the way we consume energy in our daily lives. BCPG has enhanced its path forward by employing innovation into energy management and pioneered a blockchain-based Peer-To-Peer (P2P) energy trading project, ASEAN's first, in August 2018.

BCPG in partnership with Sansiri Plc., Power Ledger of Australia and the Metropolitan Electricity Authority (MEA) jointly launched the project at T77 Precinct in Bangkok. With successful proof of concept achieved and recognized, commercial trading is expected to begin soon when regulations on P2P energy trading are issued by concerned authorities.

Bundit received Bachelor of Engineering from King Mongkut's Institute of Technology Ladkrabang, Thailand and Master of Engineering, Asian Institute of Technology (AIT), Thailand. He was honored with Honorary Doctorate of Electrical Engineering from Rajamagala University of Technology Krungthep, Thailand in 2016.

Under his leadership, a number of awards and recognitions have been granted to BCPG from various domestic and international institutions, in finance and banking, innovation, corporate image and identity, and corporate governance. Most recently he was declared "Winner for Best CEO: Renewable Energy Industry Asia" Award from Business Worldwide CEO Awards 2018, Business Worldwide Magazine, UK.
